

Sir Trotsalot & Nighttime (his mount)

The encounter starts with the undead horse, Nighttime. Attack speed is 3. Attack damage range is 2000-4000. She has two abilities:

- **Summon Sir Trotsalot:** After taking 5% damage, Nighttime will call Sir Trotsalot to join the encounter (as a second boss). No cast time.
- **Mount:** if either Nighttime or Sir Trotsalot are reduced to 25% health, Sir Trotsalot will mount on top of Nighttime and gain a new ability. No cast time.

Sir Trotsalot, when he appears, has three abilities.

- **Shadow Cleave:** Deals an immediate 3000-5000 shadow damage to the highest-threat target (or a random target if no one has threat. It has a cooldown of 3 ticks. No cast time.
- **Intangible Presence:** an area-of-effect attack that applies a -50% hit chance to all targets for 5 ticks. It has a 10 tick cooldown. No cast time.
- **Mount:** if either Nighttime or Sir Trotsalot are reduced to 25% health, Sir Trotsalot will mount on top of Nighttime and gain a new ability. No cast time.

Sir Trotsalot & Nighttime (Mounted)

- **Shadow Cleave:** Deals an immediate 3000-5000 shadow damage to the highest-threat target (or a random target if no one has threat. It has a cooldown of 3 ticks. No cast time.
- **Intangible Presence:** an area-of-effect attack that applies a -50% hit chance to all targets for 5 ticks. It has a 10 tick cooldown. No cast time.
- **Berserker Charge:** Sir Trotsalot charges a random target, dealing 1500-3200 damage and stunning the target for 6 seconds. No cast time.

Phases (3):

1. Nighttime only.
2. Nighttime and Sir Trotsalot after he is called.
3. Sir Trotsalot is mounted on Nighttime.

Mortimer, Faithful Manservant

The encounter starts with Mortimer and his Dinner Guests (a single entity in the game, but the sprite is multiple people). Mortimer attack speed is 1, damage range is 1200-3200. Dinner Guests attack speed is 3, damage range is 1000-2000.

Mortimer's Abilities:

- **Vanish:** Mortimer will vanish periodically throughout the encounter, but keeps his threat table intact. No cast time.
- **Garrote:** After each vanish, Mortimer will target a random character and apply Garrote to them, a bleed that does 17000 damage over 10 ticks. No cast time.
- **Blind:** Mortimer will periodically Blind a nearby target, decreasing their hit chance for spells and abilities to 0% for 8 ticks. No cast time.
- **Gouge:** Mortimer will periodically Gouge the character with the most threat, stunning them for 8 ticks. While a character is Gouged, he will begin attacking the character with the second-highest threat. After the Gouge ends, he will begin targeting the highest-threat character again. No cast time.
- **Berserk:** Mortimer will occasionally Berserk, throwing a dagger at a random character.
- **Enrage:** Once Mortimer reaches 30% total health, we will Enrage, attacking twice as fast and adding 50% damage to all auto-attacks. No cast time.

Dinner Guests abilities:

- **Mana Burn:** "Baroness Sylvania" will target the character with the most *current* mana (not max). That character will lose 20% of their current mana and take an immediate amount of shadow damage equal to 3x the mana burned. No cast time. 6 tick cooldown.
- **Shadow Word Pain:** "Lady Caitlin" will deal 20000 damage over 12 ticks to a random character. This ability can be removed with a Purification effect (I will add that ability for characters later). No cast time. 6 tick cooldown.
- **Greater Heal:** "Madam Curia" will heal Mortimer or the Dinner Guests for 20,000 health. 3 tick cast time. 10 tick cooldown.
- **Cleanse:** "Madam Curia" will dispel the most recent debuff on either Mortimer or the Dinner Guests, if they have any. No cast time. 10 tick cooldown.
- **Hammer of Justice:** "Baron Rolph Dragger" will stun the player with the most threat for 3 ticks. Dinner Guests then hit the character with the second-highest threat for 3500 immediate physical damage. No cast time. 12 tick cooldown.
- **Mortal Strike:** "Lord Darin Robbins" deals an immediate 6,000 physical damage to the highest-threat character, and applies the Wounded debuff to them for 10 ticks. No cast time. 12 tick cooldown.
- **Shield Bash:** "Lord Christian Farent" will Shield Bash a character who is casting a spell, interrupting that spell cast. No cast time. 12 tick cooldown.

Phases (2):

1. Mortimer and Dinner Guests.

2. Mortimer reaches 30% health.

Virtuous Lady

Virtuous Lady was captured by the owner of the tower and has gone mad over time. Virtuous Lady's attack speed is 3, and attack damage range is 2000-4000. She has the following abilities:

- **Virtuous Ground:** an area-of-effect spell that deals a constant 300-500 holy damage to all characters. This is active all the time and has no cooldown.
- **Virtuous Fire:** deals 4000-6000 Fire damage to the target with the highest threat, and applies a damage-over-time effect of 9000 damage over 6 ticks. No cast time. 6 tick cooldown.
- **Virtuous Wrath:** Deals 3000 damage to all characters. No cast time. 6 tick cooldown.
- **Virtuous Repentance:** Deals 12000 damage over 8 ticks, evenly distributed to all characters. No cast time. 20 tick cooldown.
- **Berserk:** Once Virtuous Lady reaches 10% health, she will berserk and deal 2x damage with all abilities.

The Archivist

The encounter starts with the Archivist by himself. The Archivist's attack speed is 3, and attack damage range is 2000-4000. The Archivist abilities are:

- **Summon Haunted Tome:** Every 10 seconds while in Tome phase, the Archivist will spawn a Haunted Tome. It will wait 9 ticks and then explode, dealing 4,000 arcane damage unless destroyed before then. No cast time.
- **Magic Infusion:** Magic Infusion is a non-purgable buff that the Archivist places on himself, causing each auto-attack to deal additional 1000 Arcane damage. No cast time. Duration is 20 ticks.
- **Vengeful Beam:** Vengeful Beam will target the character with the second-highest threat, and deal an immediate 4435 to 5999 Arcane damage. No cast time. 10 tick cooldown.
- **Lore Absorption:** After summoning 10 Haunted Tomes, the Archivist will begin casting Lore Absorption. The cast time is 10 ticks. Damage dealt to The Archivist during this cast is increased by 200%.
- **Enrage:** After reaching 15% total health, The Archivist will stop casting Summon Haunted Tome, and start casting Vengeful Beam once every 5 ticks. Auto-attacks will also deal an extra 1000 Arcane damage, even if Magic Infusion is currently active.

Phases (2):

1. Tome phase.
2. Lore Absorption Phase.
3. Enrage phase.

Malvestian Doomhoof

The encounter begins with **Malvestian Doomhoof**, his attack speed is 3, and attack damage range is 2000-4000. His abilities are:

- **Shadow Bolt:** Deals 3000 immediate shadow damage to the character with the highest threat. The cooldown is 4 ticks.
- **Sacrifice:** He will randomly target one character and record Malvestian Doomhoof's current health. That character will die unless 10,000 damage is dealt to him within the next 6 ticks. The cooldown is 15 ticks.
- **Fiendish Portal:** A portal will open and he will summon his pet Imp, "Kil'wretch". If Kil'wretch is not currently active, he can summon him again as long as the cooldown is finished. Cooldown is 30 ticks.
 - Kil'wretch's attack speed is 2, and attack damage range is 1000-3000.
- **Hateful Tears:** If Kil'wretch is killed, Malvestian will enrage, increases his auto-attack damage by 50% for the next 10 ticks.

Kil'wretch abilities.

- **Amplify Hatred:** This will debuff a random character to receive 20% more Fire damage for the next 15 ticks. The cooldown is 15 ticks.
- **Fire Jolt:** A small fireball that will deal 1000-2500 fire damage to a random character, regardless of threat. The cooldown is 2 ticks.

Phases (1):

1. One constant phase.

Phantom Magister

The **Phantom Magister** does not use the Threat table to target, attack speed is 4, and attack damage range is 2000-4000, and has the following abilities:

- **Frost Bolt:** Deals an immediate 4000 Frost Damage to a random character. The cooldown is 3 ticks.
- **Fire Bolt:** Deals an immediate 4000 Fire Damage to a random character. The cooldown is 3 ticks.
- **Arcane Bolts:** Deals an immediate 4000 Arcane damage to all characters. The cooldown is 3 ticks.
- **Silence Aura:** Prevents all spells and abilities from characters for the next 5 ticks. The cooldown is 20 ticks.
- **Summon Ice Elemental:** at 40% health, the Phantom Magister will summon an Ice Elemental. After 45 ticks, it will go away. The cooldown is 60 ticks.
- **Pyretic Ritual:** At 20% health, the Phantom Magister Will deal 10000 immediate Fire damage to all characters unless interrupted. The cast time is 10 ticks. The cooldown is 30 ticks.

Phases (2)

1. Main phase.
2. Pyretic Ritual phase.

Aether Drake

This encounter starts with Aether Drake in his **Aura Phase**. This phase has three effects that are always on. The **Aura Phase** will last for 90 ticks, after which all Aura stacks and effects are removed, and Aether Drake transitions to his Battle Phase. After 30 ticks in the **Battle Phase**, Aether Drake will transition back to the **Aura Phase**. This repeats until the encounter ends.

Aether Drake's attack speed is 3, and attack damage range is 3000-5000.

Aura Phase Abilities:

- **Persevering Aura:** This aura is applied to the character with the highest threat at the start of the encounter. It is not dispellable. This effect gains a new stack every 5 ticks. Persevering Aura gives the following effects:
 - It increases the character's Armor by 1% per stack.
 - It increases the amount the character is healed by 1% per stack (this affects both immediate and heal-over-time effects).
 - The character will lose 25 health per stack every tick.
- **Serene Aura:** This aura is applied to the character with the second-highest threat. It is not dispellable. This effect gains a new stack every 5 ticks. Serene Aura gives the following effects:
 - All spells and abilities cost 2% less per stack, eventually making them cost no mana.
 - It increases the amount the character is healed by 1% per stack (this affects both immediate and heal-over-time effects).
 - The character will lose 25 mana per stack every tick.
- **Dominant Aura:** This aura will be applied to the character third on the threat table. It is not dispellable. This effect gains a new stack every 5 ticks. Dominant Aura gives the following effects:
 - All healing received is reduced by 1% per stack (this affects both immediate and heal-over-time effects).
 - All damage dealt by this character (auto-attack, spells, and abilities) is increased by 1% per stack.
 - Damage taken from Aether Drake is increased by 1% per stack.

Battle Phase Abilities:

- **Void Shock:** Causes an immediate 4000 Shadow damage to the character with the highest threat. No cast time. The cooldown is 3 ticks.
- **Astral Burn:** Deals an immediate 2,000 Fire damage to all characters. No cast time. The cooldown is 5 ticks.

Phases (2):

1. Aura Phase

2. Battle Phase

Prince Malarkey

Prince Malarkey's attack speed is 2, and attack damage range is 2000-4000. He has the following abilities:

- **Axe Throw:** Phase 3 ability. Deals 200% auto attack damage. No cast time.
- **Void Nova:** deals an immediate 5,000 shadow damage to all characters. 4 tick cast. 10 tick cooldown.
- **Void Word - Pain:** Deals 10000 shadow damage to the character with the highest threat over 5 ticks. No cast time. 10 tick cooldown.
- **Fury:** Phase 2 ability. While active, it gives Prince Malarkey a 50% chance on auto-attack to deal an extra attack. No cast time. 10 tick cooldown.
- **Break Armor:** Phase 2 ability. Reduces the effect of armor on the highest-threat target by 50%. No cast time. Duration is 10 ticks.
- **Pain Augment:** Phase 3 ability. Increases a random character's damage taken by 100% for 10 seconds. It cannot be dispelled. Cooldown is 10 ticks.

Phases (3):

1. Prince Malarkey health 61-100%.
2. Prince Malarkey health 31-60%.
3. Prince Malarkey health 1-30%.

Dreadwing

Dreadwing's attack speed is 4, and attack damage range is 2000-4000.

- **Fearful Roar:** Stuns all characters for 3 ticks. 10 tick cooldown.
- **Burnt Ground:** Deals 30000 over 15 ticks. 30 tick cooldown.
- **Cleave:** Deals 4000 immediate physical damage to the character with the highest threat and one other random character. 10 tick cooldown.
- **Tail Slap:** Deals 4000 immediate physical damage to the character with the lowest threat. 10 tick cooldown.
- **Ashen Cloud:** Reduces all character's auto-attack chance-to-hit by 20% for 10 ticks. 20 tick cooldown.
- **Infernal Breath:** Deals an immediate 8000 Fire damage to the character with the highest threat, and 4000 Fire damage to the character with the second-highest threat. 12 tick cooldown.
